

# Brandon Maggiano

Full Stack Web Developer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in Javascript. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with a great team to learn and grow with.

## EXPERIENCE

### Real Estate Agent

October 2016 — Present

- Leadership role to walk clients through the buying and selling process involved with home ownership.
- Use technologies such as ARMLS, Skyslope, Transaction Desk, and other DB driven sites to keep in contact with clients.

### Full Stack Web Developer Student

April 2022 — Present

- Learned the MERN stack.
- Proficient in front end as well as back-end programming.
- Collaborated with cohort of peers to build applications and debug code on a workday simulated schedule.

### Recent Projects:

**Rankedify (Fullstack Web App)** – A full stack application using Javascript, NodeJS, Sequelize, Bootstrap, and Express to allow users to rank their top 5 video games of all time!

**Wingman (Front End Web App)** – A project designed to take the decision-making process away from the indecisive couple. Using server-side API calls to get a random movie, dinner, and cocktail, the user can also store some of their favorite dates in local storage for future reference.

**JATE (PWA)** – "Just Another Text Editor"... This application showcases the power of PWA's and the usefulness of being able to cache data and install apps to be used in offline mode. Give this a try for yourself!

**Other Projects:** Weather Forecast, Workday Scheduler, Ecommerce back end, Social Network API, Employee Tracker App, Random Password Generator, Coding Quiz Challenge, Team Profile generator, Blog Site
